## BRAZIL

### Funding opportunities

EURAXESS Links Brazil Funding opportunities is a list of open calls to fund researchers' mobility, compiled monthly by the EURAXESS Links Brazil team.

The information contained in this publication is intended for personal use only. It should not be taken in any way to reflect the views of the European Commission nor of the Delegation of the European Union to Brazil.

Please email [brazil@euraxess.net](mailto:brazil@euraxess.net) with any comments on this list, contributions you would like to make, if you think any other colleagues would be interested in receiving this document, or if you wish to unsubscribe.

Editors: Charlotte GRAWITZ, EURAXESS Links Brazil, Country Representative, Ana Paula ROSSETTO, Support Officer

Dear Colleagues,

#### **Our way to get information to you has changed!**

In a move to update both how and with what frequency you receive information on events and services, as well as news regarding developments within European research and policy circles, we have adopted a new set of formats.

Replacing the monthly newsletters, "flashnotes" —brief, timely news flashes designed to inform community members of upcoming events and activities—will be delivered directly to members' electronic mailboxes on average four times a month.

Besides flashnotes, members will soon also receive information related to funding, jobs and more in the realm of research and science only once every quarter, in the form of quarterly newsletters.

All the information previously contained in the newsletter will now [appear online on our website](#).

A EURAXESS portal will be launched later this year. Upon its launch, you will then have access to many new user-friendly and useful tools!

However, until the new portal is launched, we will continue to publish a compilation of open calls to fund researchers' mobility and cooperation with European teams on a regular basis.

The **grants & fellowships** listed below are funded by the European Commission, EU Member States or Brazilian authorities.

We hope this list will help you turn your interest in research mobility into a reality.
